## AKTV8's Advanced TPMS:

SEAMLESS INTEGRATION WITH  
PLATFORM SCIENCE

FleetAKTV8 TPMS is the most scalable, affordable solution that installs in minutes. AKTV8's wireless TPMS sensors integrate seamlessly with Platform Science's advanced tablets, simplifying and reducing costs for extra hardware and installation.

## Why AKTV8?

- ✓ Installs in minutes - no Gateway
- ✓ Scan-and-go sensor configuration
- ✓ Surround Sense™ nearby sensors

## AKTV8

### Next-Generation TPMS

— Thru Sensor —

— Cap Sensor —

Made-easy digital solutions for real-time control, real-time monitoring and predictive maintenance.

# FLEETAKTV8

MOST ADVANCED TPMS SENSOR

AKTV8's PressureTech™ TPMS sensors incorporate advanced electronics, Bluetooth connectivity and motion-based intelligence for optimized performance and battery life. Validated to heavy-truck standards and assembled in the USA, PressureTech™ sensors deliver the most reliable and efficient pressure-monitoring solution available for fleets.

	TPMS Specs	
	Thru Sensor	Cap Sensor
		
Package Quantities	4, 6, 8, 10	4
Application	All HD Vehicles	HD Trailer w/ ATIS
Pressure Range	Up to 200 PSI (13.8 BAR)	
Temperature Range	-40° F to 185° F (-40° C to 85° C)	
Battery Life	6+ years (serviceable battery)	
Warranty	3 years	
Key Technology Features	Advanced fully potted pressure chip	
	BLE 5.0 technology (2.4Ghz)	
	Motion-based intelligence	
	Dynamic battery management (BMS)	

**Direct Platform Science telematics integration.**

**Lightweight and easily attached to valve stem.**

**Laser-etched QR code for scan-and-go configuration.**
